The Dimplex
Electric Fires Collection

EN

Why Dimplex?

Millions of people around the world enjoy the comfort we bring every day with our Decorative Electric Fireplaces. For over 50 years our customers and partners have relied on our people, products, and brand, to deliver atmosphere in a safe and sustainable way, with no compromise.

Our track record of bringing innovation, being first in market and opening new categories is driven by our desire to challenge the status quo and find better solutions to provide the comfort and ambience to enhance millions of lives, working closely and openly with our trade partners and customers.

Dimplex, Experience Better Living

Why Dimplex in short

- 50 years of experience in Electric Fireplaces: this is our focal point, no distraction and complete commitment to deliver the ideal solution for each customer.
- Patented technologies: all our flame technologies are patented and are the result of continuous investments and determination to bring the perfect atmosphere to your home.
- Complete product offer: we have the widest offer in the market to satisfy all needs, from plug & play to integrated solutions.
- Trusted service: our network is specialized in Electric Fireplaces and provides an efficient and collaborative support.
- Comfort and sustainability, with no compromise: we are devoted to bring the most sustainable fireplace experience to all homes, with 100% safety and zero impact on the environment.

www.dimplexfires.com

Why choose an electric fireplace?

A decorative electric fireplace is the perfect solution when seeking an instant enhancement in any environment, whether it be in a home or a public space.

Ease of use: Enjoy your fireplace whenever you wish, simply by pressing the remote-control button.

Can be installed anywhere: You have no constraints of smoke evacuation or thermal requirements; you can install your fireplace in any room, within a partition, inside a piece of furniture, or just by placing it.

No maintenance: No ashes to dispose of no insert glass to clean, and of course, no cleaning; you only need to relish the warm ambiance of your fireplace.

Safety: No emission of toxic gases, nor risk of fire.

Year-round usability: The heating function is independent of the flame effect. Therefore, you can enjoy the cozy atmosphere of your fireplace without heating when you don't need it.

Environmentally friendly: No use of fossil fuels.

No chimney flues needed: Consequently, you can install your fireplace at a lower cost and without location constraints.

Flame technologies

The warm, flickering glow of a fireplace creates a cozy and inviting atmosphere in any home. Dimplex, a pioneering brand in the electric fireplace industry, offers a diverse range of cutting-edge flame effect technologies to suit every preference and home décor. The Dimplex flame effect technologies are: Optiflame®, Optimyst®, and Opti-V®.

Optiflame

Optiflame® is the original Dimplex electric flame effect, and revolutionised the electric fire market when first launched in 1988. It creates a mesmerising and lifelike flame that provides warmth and ambiance in any room, with complete safety and the peace of mind of a maintenance free, electric solution. Endlessly refined and continually evolving, Optiflame® remains the world's most popular electric flame technology.

Optimyst

Optimyst® is the world's most realistic 3D electric flame effect for those looking for a truly authentic experience, combined with the safety and low maintenance of an electric solution. Patented by Dimplex, it offers a flame experience that can be enjoyed from all angles, making it perfect for stunning room dividers and see-through fireplaces. This unique flame effect is generated by an innovative combination of cold water vapour and light.

Opti-V

Opti-V® is the first and original virtual flame technology, patented by Dimplex. This stunningly authentic fire experience requires no maintenance and delivers a flame image equal to that of a traditional fire, with no emissions and in total safety. It delivers a virtually perfect flame effect through a magic combination of High Definition video and LEDs.

Cassettes / Engines

Cassette Vapor 400/600 NH LED

230V/50Hz | 125 Watt

Experience Better Living

Cassettes

The Cassette400/600 LED inset fire unit not only surprises with its free floating flame and smoke effect, its modest size and variable flame intensity make it highly suitable for 'endlessly' creative interior solutions: placed as a single unit in a table or inside a gas or wood fireplace, or as a line of fire by simply putting several units alongside each other. The only connection you need is 230V. Just fill the reservoir with fresh water and click on the remote for hours of cosy ambiance, over and over again.

- Ideal for creative projects, to be installed in furniture or used for other decorative purposes
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- View of the fire from 4 sides
- Newly developed with LED lights for lower power consumption with a longer service life
- Crackling logs sound effects with adjustable volume
- Logset available as an accessory

All-round view.

Surprising by the floating flame and smoke effect and variable flame intensity.

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.

Optimyst flame technology, flame patterns by cold water vapour.

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.

Product is delivered without decoration, but can be decorated with a wood set (optional to be ordered).

Control all functions of the fireplace from the comfort of your chair.

Very suitable for installation.

MAGGIE L

230V/50Hz | 400 Watt

Experience Better Living

Cassettes

The Cassette L Pebbles is part of the Dimplex Cassette range, known for its unique, free floating flame and smoke effect, but now supplied with a decoration of white pebble stones. Easy to install in bespoke interior projects, only a normal electric socket is required. The flames are made of cold water vapour and light, which is safe, fume free and has a hugely decorative effect over the stones. Its water reservoir can be refilled from the front, which is very practical for frequent use.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- View of the fire from 4 sides
- Decorated with white pebbles (included)

All-round view.

Surprising by the floating flame and smoke effect and variable flame intensity.

Optimyst flame technology, flame patterns by cold water vapour.

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.

Comes as standard with white pebbles

Very suitable for installation.

MAGGIE (XL)

230V/50Hz | 200 / 450 Watt

Experience Better Living

Cassettes

The Juneau is an electric inset fireplace unit, ready to be installed into nearly any interior space or indoor object, including inactive gas or wood fireplaces. The three dimensional Optimyst® fire image comes from cold water vapour and light, which is startlingly realistic, can be seen from all sides, and is safe to touch. A practical detail: the water reservoir can be refilled from the front, without removing its glowing logset. In a few words: the Juneau is a perfect basis for great fireplace projects.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- Logset included

Engines

Dimplex Engines are designed to create your quality fireplace inside a wall or surround, exactly where you want it, finished to fit your personal taste and easy to use. Not only offering the unrivalled Optimyst® flame effect but also the comfort of a thermostatic heater. Thanks to its smart 24/7 timer, it is ready to welcome you with a cosy atmosphere at any moment. The vertical shape of the Engine 68-400 allows a good view on its uprising flames. The optional black mirror back panel adds to this.

- Insert fireplace with a modern and elegant appearance
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- Enjoy the ambiance of the flames with or without the heater for all year round comfort
- 24/7 timer ensures a high flexibility, each day of the week can be set individually
- Optional: mirror back panel for an even more intense fire experience

One-sided decorative fireplace.

Surprising by the floating flame and smoke effect and variable flame intensity.

Optimyst flame technology, flame patterns by cold water vapour.

Powerful fan-assisted heating by safe element that provides additional heating on demand.

Control all functions of the fireplace from the comfort of your chair.

Mirror wall or stone motif wall as a backpanel option to match your interior.

7 Day Programmable Timer.

Very suitable for installation.

NIGHT ULTRA 40 | 50 | 60 | 74

230V/50Hz | 30 / 36 / 43 / 51 Watt

Experience Better Living

Built In

The Ignite Ultra is the latest innovation from Dimplex combining cutting edge technology with an elegant modern design for a true state-of-the-art electric fire which will transform any home. This stylish fire boasts the next generation of Optiflame technology, delivering a realistic electric fire that will ignite all your senses and truly captivate you. The Ignite Ultra's flames dance and flicker like real fire and are enhanced by the pulsating and glowing logs, along with the crackling sounds, adding to the authentic fire experience. The large viewing window of 43,2 cm allows you to enjoy the enchanting flames, which create a stunning fireside glow and add warmth and atmosphere to any room. Available in a choice of sizes you can choose from three layout options: a single glass panel for a striking front-facing fire, two panels for a dynamic corner installation, or three panels for a truly panoramic effect. Dimplex's ComfortSaver technology ensures energy-efficient heating, reducing power consumption without compromising warmth and comfort.

- **Advanced flame technology** - experience a new generation of patented Optiflame technology, delivering a highly realistic and stunning flame effect
- **Realistic glowing logs** - features pulsating logs enhanced with inner glow technology that pulse in rhythm with the dancing flames
- **Crackling sound effects** - enrich the sensory experience of your fireplace with the wood crackling sound
- **Choice of installation options** - 1, 2 or 3-sided fireplace, the possibilities for customization are endless
- **Patented ComfortSaver technology** - energy efficient heater offering up to 11% saving on energy costs
- **Flame Connect App** - change the fire experience to your liking all by the touch of a button

-  3 installation options. Can be built in as a 1, 2 or 3-sided fireplace.
-  Possibility to connect multiple units together.
-  Flames rising over a highly realistic glowing fire bed.
-  New generation Optiflame technology, calming flames above the colourful glow bed.
-  Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.
-  Comes as standard with a Lighted logset and tumbled glass.
-  Ability to switch between glow bed colours.
-  Colour alternating flame effects.
-  Powerful fan-assisted heating by safe element that provides additional heating on demand.
-  Flame Connect app available for smartphone.
-  Energy-efficient heating, delivering up to 11% energy savings.

Vista 70 | 130

230V/50Hz | 35 / 70 Watt

Experience Better Living

Built In

The Vista is the perfect blend of rich flame experience and space-saving design. With sparks jumping off glowing logs and the crackling sound of a wood fire, the Vista gives you a lifelike flickering flame effect. Created with Opti-Virtual® technology, brought to you by the original inventors of the Virtual flame technology. Choose from a 3-sided or front-facing option, both with a stunning 40cm viewing window and limited installation depth. No compromises! Coziness meets functionality with the thermostatic heater, providing warmth and comfort at your fingertips. Even when the fire is off, the ceramic logs and decoration create a beautiful focal point.

- Opti-V flame technology; the first realistic virtual flame technology on the market, patented by Dimplex.
- Realistic log set with glowing LED lights, stunning even when the fire is off
- Available in 1- and 3-sided option
- Flame effect with heating function for year-round enjoyment

1 or 3-sided fireplace.

Blended 3D technology creates enchantingly beautiful flames.

The first virtual flame technology on the market, patented by Dimplex.

Virtual technology and LED backlight produce lifelike fire effects, enhancing room ambiance in any situation.

Product includes fixed logs, but Opti-Virtual technique creates an illusion of logs both in front and behind flames.

Powerful fan-assisted heating by safe element that provides additional heating on demand.

Control all functions of the fireplace from the comfort of your chair.

Standard slatted backpanel enhances realism and visual depth.

MULTIC PLUS 75 | 100 | 150

230V/50Hz | 20 / 28 / 40 Watt

Experience Better Living

Built In

MULTIC Plus brings you the most advanced combination of comfort and energy efficiency. With our innovative Optiflame technology, combined with a unique crackling sound and an authentic set of real and ceramic logs, it creates an unrivalled, lifelike fire experience. Featuring energy-saving technologies such as ComfortSaver, offering savings of up to 11%. Meanwhile, Smart Sense technology detects movement in the room and automatically switches the fire off when you're not there. With three sizes and layout options, finding the perfect fire for your home or venue is a breeze and with full control of your fire via smartphone, you can create the perfect atmosphere anytime.

- With three size and layout options
- SmartSense: auto-off feature saves energy by detecting room activity
- ComfortSaver: Maintains room temperature and saves up to 11% energy
- Optional: Black Back Panel for even more intense flames
- With Flame Connect App
- With anti-reflective glass and real crackling fire sounds

-  3 installation options. Can be built in as a 1, 2 or 3-sided fireplace.
-  Fully adjustable fire image with high-contrast flames for a surprisingly deep and lifelike effect.
-  Optiflame technology, soothing flames with a lit glow bed.
-  Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.
-  Comes as standard with an authentic logset.
-  Colour alternating flame effects.
-  Powerful fan-assisted heating by safe element that provides additional heating on demand.
-  Flame Connect app available for smartphone.
-  Thanks to the reflective back panel, the flames will be even more intensely
-  7 Day Programmable Timer.

- Can also be installed as one-sided or two-sided
- Flame effect with optional heating function for year-round enjoyment
- Realistic logset included
- With a drawer at the front, refilling the water reservoir is a simple task
- Comfort\$aver: Maintains room temperature and saves up to 11% energy
- With Flame Connect App

3 installation options. Can be built in as a 1, 2 or 3-sided fireplace.

Surprising by the floating flame and smoke effect and variable flame intensity.

Optimyst flame technology, flame patterns by cold water vapour.

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.

Comes as standard with a logset.

The colours of the flame can be adjusted to the colours blue, violet, red, aquamarine or change the colours to a mix by using the Flame Connect app.

Flame Connect app available for smartphone.

Sound effect of crackling wood fire.

7 Day Programmable Timer.

Very suitable for installation.

RUSTIC 30

230V/50Hz | 15 Watt

Experience Better Living

Built In

The Dimplex RUSTIC is the ultimate enhancement for your existing fireplace or furniture. This ready-to-install solution instantly transforms your space into a cozy retreat. Featuring a remarkably realistic logset with a captivating glow effect and mesmerizing flames that dance upwards from the center, it effortlessly captures the essence of a traditional fireplace. With a decorative back panel and a variety of ambient light options in customizable colours, you can create the perfect atmosphere to suit any moment, interior style, or mood. Complete with a built-in heater, the Firebox is the epitome of warmth and sophistication.

- Easy installation in the wall or in furniture
- Efficient and controlled heat output by using the thermostatic heater.
- Mirage Flame panel - partially frosted acrylic panel which works better than a mirror, showing only lifelike flames and no reflections
- Adds additional atmosphere with custom atmospheric lighting and colour enhancement

-  One-sided decorative fireplace.
-  Flames rising over a highly realistic glowing fire bed.
-  Optiflame technology, calming flames above the colourful glow bed.
-  Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.
-  Colour alternating flame effects.
-  Powerful fan-assisted heating by safe element that provides additional heating on demand.
-  Control all functions of the fireplace from the comfort of your chair.
-  Fireplace can also be operated via button display on the fireplace.
-  Very suitable for installation.

GERRY VAPOR

230V/50Hz | 60 Watt

Experience Better Living

Inset

Do you cherish your existing fireplace or stove but make no use of it? The Silverton is a smart and compact electric fire, designed to revive your wood or gas fire. Thanks to its glowing logs, its flames and smoke coming from cold water vapour and LEDs, enjoying your fireplace can be a comfortable and lasting experience, again.

- Compact freestanding fireplace
- Also suitable as an insert for inoperative fireplaces
- Glowing LED logset with loose logs for individual decoration
- Includes a glowing fire bed for under the fire basket

All-round view.

Surprising by the floating flame and smoke effect and variable flame intensity.

Enjoy the unique charm of a fireplace 365 days a year using the flames without the heat.

Optimyst flame technology, flame patterns by cold water vapour.

Flames and lamps use energy-efficient LEDs that require no maintenance and can burn separately.

Control all functions of the fireplace from the comfort of your chair.

Easy to connect to a standard socket for instant atmosphere.
